

NEW!

TUESDAYS WITH TONI**Playing with the NEW Virtual Bead String**

Psst-have you heard?! The NEW Virtual Bead String Model is inspiring new ways of thinking about the teaching and learning of math in K-4 classrooms. The ReimaginED Team has been experimenting with this NEW innovative model and has been piloting it in classrooms across New York City. In our collaborations with teachers, we have found that the bead string, when used mindfully and skillfully, is a critical tool to help children develop the mathematical structures essential for fluency in number.

This Math PD is only offered to those educators who have access to the NEW Virtual Bead String APP. We hope you'll join us!

REGISTER NOW**Why are we Offering this Series?**

To support teachers who are eager to use this model with their students, we have created a series of Bead String Lesson Sketches, which we will be rolling out this summer in virtual PD sessions called "Tuesdays with Toni" [Antonia \(Toni\) Cameron](#).

Toni, the creator of the NEW Virtual Bead String model, will be facilitating each virtual session LIVE and offer coaching support for participants using this tool.

What's the Structure of each Virtual PD Session?

Each session is designed as a practicum, educators will have the time they need to play, collaborate, and receive feedback on how they are modeling students' mathematical thinking.

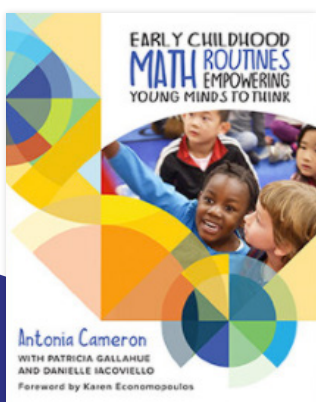

Video examples will be used to highlight specific teaching tools (essential talk moves and use of board space); analysis will also focus on how to deconstruct students' mathematical thinking and how to represent their ideas to highlight important mathematical structures.

Who Should Attend?

These sessions will be tailored to meet the needs of ALL participants. Whether you're just starting to play with the Virtual Bead String or if you're ready for more advanced explorations, please join us.

CREDIT WILL BE AVAILABLE.
(2 HOURS PER SESSION ATTENDED)

BUY NOW**Choose 1 or more sessions to attend.**

Each session listed below will be a stand alone.

2-HOUR SESSIONS**Building Fluency in Early Number, Addition & Subtraction****TUESDAYS:**

July 11, July 18, July 25
9:00 - 11:00 AM (EST)

- A. Lessons to Develop Fluency with the Building Blocks (a.k.a Basic Facts)
- B. Lessons to Develop Fluency with Landmarks
- C. Lessons to Develop the Connection between Addition & Subtraction

2-HOUR SESSIONS**Building Fluency in Multiplication, Division - The Bridge to Fractions****TUESDAYS:**

August 1, August 8, August 15
9:00 - 11:00 AM (EST)

- A. Lessons to Develop Fluency with the Building Blocks (a.k.a Basic Facts)
- B. Lessons to Develop Landmark Strategies in Multiplication & Division
- C. Lessons to Develop Foundations in Fractions

\$275 PER SESSION**OR**

**\$625 FOR ANY 3-SESSION
BUNDLE (SAVE \$200!)**
